RBM FARGO Y111

EM809088

...a road less traveled, until now

The search for outcross genetics becomes easier when you look down the road to RBM Fargo. Fargo brings proven progeny data to his EPD profile. His superior feet, 40-cm. scrotal at a year of age and quiet temperament are the icing on the cake. His dam is a proven donor with multiple sons in purebred herds, was pick of the two-year-olds at Hebbert Charolais and is a daughter of the maternal giant, LT Easy Pro.
